CHOICES WE MAKE Rev. G. H. Strouse Speaks at International Silver Company.

At the International Silver company Tuesday noon, under the auspices of the Y. M. C. A., Rev. G. H. Strouse gave a very interesting talk on The Power of Choice. He pointed out that Christ is hailed today as the world's Saviour because He made this solemn and far-reaching choice. He chose to come to this world and die for us.

Christ's choice was to be a Saviour. The name given Jesus at His birth means that "Thou shalt call his name Jesus, for he shall save his people from their sins." A Japanese student was once asked

License your dog in the town clerk's office today. One dollar extra after May first.—adv. what first impressed him in reading the Bible. He answered: "Jesus going up to Jerusalem, when he knew it meant death." Must Choose.

There is the necessity of making a choice. You can't say, I won't choose. You must choose. The lives you are now living, the things you are doing, the places to which you are going, all reveal the choices you have made. You may choose the good, you may choose the evil. You have this power. And this talk is all nonsense when poeple say it doesn't matter what we choose, we shall all come out right in the end. Choice decides destiny. Our eternal destiny hinges on the choices we make. That is, God has so arranged it that the only thing between life and death is the choice we make. death is the choice we make.

PROFIT SHARING

This is the age of profit-sharing. Business men are find-ing that to give their employes a share of the profits is stim-ulating to the employes and helpful to the business. Co-operative advertising between merchant and manufac-turer in the local newspapers is, in a way, a phase of this profitsharing movement.

The manufacturer brings to the merchant a certain share of

his profits—by advertising in the newspapers of the merchant's city.

These profits in turn create more business, and when the merchant is shrewd enough to do his share in pushing the goods, the increased saics are well worth-while, both, for the merchant and for the manufac-
